POOL SYSTEMS

InGround DV Pool Pumps

Unparalleled Motor Technology— Quiet & Dependable!

The AquaGuard DV InGround pool pump is designed to meet the demands of any InGround pool. This pump features the TEFC motor design which offers unmatched quiet performance, extended motor life & outstanding flow to keep your pool clean for many seasons.

- Designed for InGround pools of all types and sizes
- Low amp TEFC motor technology, a Totally Enclosed Fan Cooled motor which offers unmatched quiet operation
- Motor life is extended with the totally enclosed design by preventing debris from entering the motor
- Extra-large strainer basket keeps pool maintenance to a minimum
- Self Priming

InGround DV Pool Pumps

1-1/2" NPT female union connections

EZ view lid + over-sized strainer makes cleaning a snap

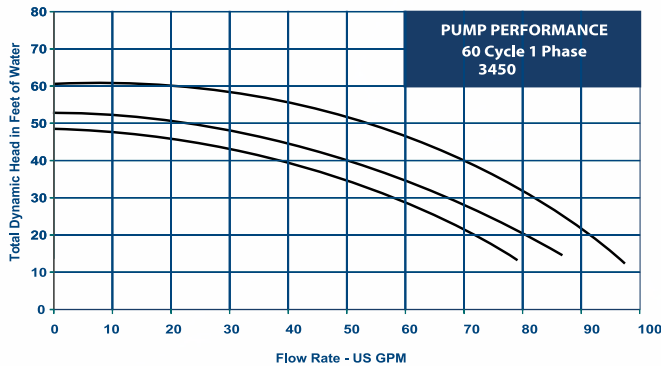

TEFC motor construction allows for long motor life even in demanding conditions

TEFC Motor Features

Exterior fan for exceptional cooling & quiet operation

Performance You Can See!

Includes Protektor

Anti-entrapment device, provides necessary safety to prevent hair, limb, and mechanical suction entrapment.

Diverts the flow of water into multiple levels avoiding the formation of a vortex.

Helps mitigate the hazard(s) due to DHDF (differential hold down forces), especially incorrectly installed suction outlet systems.
